

Find 10 different model providers and their models released in last 12 months

#	Provider	Models	Release Timeline	Key Highlights
1	OpenAI	GPT-5.5, GPT-5.4	Early 2026	Unified reasoning, coding, multimodal capabilities
2	Google DeepMind	Gemini 3.1 Pro, Veo 3	Feb 2026	High benchmark scores, large context windows
3	Anthropic	Claude Opus 4.7, Sonnet 4.6	Early 2026	Strong agentic coding, 1M-token context
4	Meta	Llama 4 Maverick, Scout	Mar 2026	Open-weight, multimodal, up to 10M-token context
5	DeepSeek	DeepSeek-R1, V4	Jan 2025 / Mar 2026	High-performance reasoning, cost-efficient
6	xAI	Grok 4, Grok 4.20	Early 2026	Multi-agent architecture, real-time data integration
7	Alibaba Cloud / Qwen	Qwen 3.5, Qwen 3.6	2025–2026	High-performance open-source models
8	Mistral AI	Mistral Large 3	2026	High-speed efficiency, strong for RAG use cases
9	Zhipu AI / Z.ai	GLM-5, GLM-5.1	Feb–Mar 2026	Competitive coding performance, cost-efficient
10	Microsoft	Phi-4 Reasoning-Vision	Mar 2026	Small-scale, efficient multimodal reasoning
11	Moonshot AI	Kimi K2.6, K2.5	Apr 2026	Strong reasoning, excels in agentic automation
